-You rely on the quality of Canon cameras and lenses to help you make amazing images. To keep your camera gear in optimal condition, regular maintenance is needed. Canon Maintenance Service is here to help. Regardless of how careful you are with your gear, dust, debris, and wear are inevitable. From the active photographer to the casual amateur anyone can experience these effects which may lead to diminished image quality. To avoid this, we recommend periodically having your gear cleaned and checked by a Canon Factory Service Technician. Best of all, if during the CMS we find something that requires more than just a cleaning to correct, we will contact you with a description of the problem and what we recommend to do to fix it. You can be sure that your camera performs the way it was intended to and you can be ready for that perfect shot!
